ACKNOWLEDGEMENT

Music appropriate to the occasion of commencement, both vocal and instrumental, has been provided, traditionally, by members of the faculties, student bodies, and staff of the Louisiana State University Medical Center, and appreciation is hereby extended to those performing in today's ceremonies. All participants in this program, candidates for degrees, their families, and other special commencement guests, are sincerely requested to honor America in the singing of OUR NATION ANTHEM, the lyrics of which follow:

O say can you see by the dawn's early light
What so proudly we hailed at the twilight's last gleaming

Whose broad stripes and bright stars
Through the perilous fight

O'er the ramparts we watched
Were so gallantly streaming

And the rocket's red glare
The bomb bursting in air

Gave proof through the night
That our flag was still there

O say does that star-spangled banner yet wave
O'er the land of the free and the home of the brave

Francis Scott Key

THE COMMENCEMENT SPEAKER

Gerald S. Berenson, M.D.

Gerald S. Berenson, M.D.

Boyd Professor of Medicine
Louisiana State University Medical Center

Dr. Berenson is currently Boyd Professor in the Department of Medicine, Louisiana State University School of Medicine in New Orleans, and Chief of the Section of Cardiology. He is a 1945 graduate of Tulane University School of Medicine, and was appointed assistant professor in the LSU Department of Medicine in 1954. In 1958, Dr. Berenson was promoted to associate professor, and achieved the rank of professor in 1963. He was appointed Boyd Professor in 1988. This title is reserved for those faculty in the LSU System who have attained national or international prominence for outstanding teaching, research, or other creative achievement. The distinction is regarded as the highest professional rank awarded by LSU. Dr. Berenson is a member of numerous local, regional, and national organizations including Alpha Omega Alpha, the Louisiana Heart Association, the American Heart Association, the American Society of Hypertension, the American College of Cardiology, the Society for Experimental Biology and Medicine, the New York Academy of Sciences and the American Association for the Advancement of Sciences. His major research interests are in the areas of cardiovascular disease, and he has received over 30 years of grant support for studies investigating the role of connective tissue in the development of cardiovascular disease, which is one of the longest continuously funded research grants from the National Institutes of Health. He has received over 15 years of federal grant support as a director of a Specialized Center of Research for Arteriosclerosis, and also served as director of a National Research and Demonstration Center for Arteriosclerosis. Dr. Berenson is nationally and internationally recognized for his teaching competence in the area of Cardiology, and for his investigations relating natural lesion development and risk factors, including blood pressure, nutrition, and genetics, in a major study involving the young people of the city of Bogalusa, La. Dr. Berenson has authored nearly 400 research publications in major research journals.

ACADEMIC HERALDRY: THE SYMBOLS OF LEARNING

The college or university commencement procession today, in this Nation and abroad, is a pageant, alive and bright with dress and ceremony inherited from the medieval European universities of the eleventh and twelfth centuries.

To preserve their dignity and meaning it early became necessary for those universities to set rules for academic dress. American universities agreed on a definite system in 1895 and set up a suitable code of academic dress for the colleges and universities of the United States. In 1932 The American Council on Education presented a revised code which, for the most part, governs the style of academic dress today.

The Principle features of academic dress are three: The *gown*, the *cap*, and the *hood*.

The Gown. The flowing gown comes from the twelfth century. It has become symbolic of the democracy of scholarship, for it completely covers any dress of rank or social standing beneath. It is gray for the associate degree, and black for all other degrees, with pointed sleeves for the Associate and Bachelor's degree; long, closed, sleeves for the Master's degree, with a slit for the arm; and round, open sleeves for the Doctor's degree. The gown worn for Associate, Bachelor's or Master's degree has no trimmings. The gown for the Doctor's degree is faced down the front with velvet and has three bars of velvet across the sleeves, in the color distinctive of the faculty or discipline to which the degree pertains. For certain institutions the official colors of the college or university may appear on the gown or its decorations.

The Cap. The freed slave in Ancient Rome won the privilege of wearing a cap, and so the academic cap is a sign of the freedom of scholarship and the responsibility and dignity with which scholarship endows the wearer. Old poetry records the cap of scholarship as a square to symbolize the book, although some authorities claim that the mortar board is a symbol of the masons, a privileged guild. The color of the tassel on the cap denotes the discipline, although a gold tassel may be worn with any Doctor's gown.

The Hood. Heraldically, the hood is an inverted shield with one or more chevrons of a secondary color on the ground of the primary color of the college or university. The color of the face of the hood denotes the discipline represented by the degree; the color of the lining of the hood designates the university or college from which the degree was granted.

COLORS DISTINCTIVE OF CERTAIN DISCIPLINES AND PROFESSIONS

Green: *Medicine*

Lilac: *Dentistry*

Blue: *Philosophy*

Yellow: *Science*

Apricot: *Nursing*
